Sealing Products - Quality Products for Durability Since 1982

COMPANY OVERVIEW

We are introducing ourselves as Manufacturer & Importer of Industrial Seals & Tractor agriculture Machinery parts. For over 39 years we are leading Supplier of seals & sealing products with our brand name **FANCO SEALS**. Quality, Reliability, Durability and Price are the four core factors that determine the growth of our company, we have been catering to the markets worldwide since the year 1982. Our wide and increasing range of seals, sealing elements and custom made products have wide applications in different industries. We have a large inventory of Seals and the same can be supplied EX-stock to meet your urgent requirements.

APPLICATION OF OUR PRODUCTS

Our products are used for OEMs & Replacement including application in all major industrial segments like hydraulic & pneumatic cylinder manufacturing, mobile hydraulic, steel plants, material handling, paper mills, cement plants, pharmaceutical & drug industries, NTPC, Defence establishment, railways, textile industries, excavation & mining, tractor & harvesting machinery, water pumps, hydraulic pumps, oil & chemicals and general engineering.

QUALITY

Our supreme quality products have made us an ideal company to serve the requirement of a broad spectrum of buyers with varying needs.

INFRASTRUCTURE

We have a complete setup of Hightech machinery and latest technology instruments with best warehouse and shipping facilities, so that the products reach the customers without any hassle.

WHY US?

Quality products at competitive prices in minimum time. Quality and timely delivery had earned a name in the national as well as international market. Active after sales support and by maintaining transparency in all our business deals. We look forward to expand our scale of operations globally and develop a market reputation based on quality, innovative approach and ethical business practice. We always welcome your query and feedback.
